# Innovation of a healthier and more comfortable dog-walking experience

The primary function of an excellent dog leash is to deliver a smooth and extraordinary feeling for your hands, adding pleasure to your dog-walking experience in other aspects.

White

Green

Pink

## Superb Hand Feeling

The outside handle is made from solid polycarbonate and the inside is of soft TPE polyethylene, which brings superb hand feeling even for long-time holding.

## Change as You Want

GO is designed for pet owners to replace leashes to meet all your requirements for different functions when walking your dogs, e.g. flexible or fluorescent leash, etc.

- Standard Rope
- Reflective Rope
- Shock-absorbing Rope
- Non-slipped Rope

## Lighting System

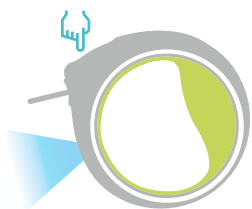

Equipped with LED, you don't need to worry about low lights when walking your dog anywhere that is dark.

### Circular lamp band

Set your lamp by PETKIT App to bring more security at night.

### Torch

Night dog-walking illumination.

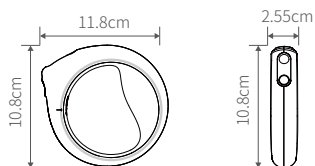

## Intelligent System

### Share your roadmap

Each time when you finish walking your dogs, a dedicated roadmap will be generated via our PETKIT App to clearly present the route and store it in the history.

### Sync with your cellphone

Equipped with SMART HANDLE, you won't miss any important messages because GO can synchronize with your cellphone and remind you of all the notifications.
